

COUNCILMEN ARE AFTER SCALPS.

Police Board Members Threaten to Retaliate by Dropping Five for One.

The bitterness between the Republican members of the Council and the Board of Public Works continues to grow instead of abating.

Mayor Harston's intimation that for every friend of the Board that the Council dismissed five friends of the Council would be dropped, has added fuel to the flame, and the seeming defiance has only added to the determination to make reprisals. Neither the Mayor nor City Attorney Johnson will talk for publication, but their attitude indicates that they are ready to fight if the issue is made. On the other hand several of the Councilmen are hot for the fray, and propose to make the fur fly at the first opportunity. They don't wish to rush into print, however.

One of the first moves threatened by the Councilmen is the ousting of Thos. Le Ballister from his position of Wharfinger. The next will be directed against John Wilds, junior of the City Hall. Wilds is regarded as the special protégé of City Attorney Johnson. He edits "Sunshine," the colored weekly, and wields considerable influence among the colored voters. He was a vigorous advocate of Mr. Johnson's election, and in return the City Attorney has stanchly stood by Wilds in his present position. Le Ballister's removal is directed at the Mayor.

There is strong talk of cutting off everything that is possible from City Engineer Turner, who is held responsible for protecting McClelland, the particular bete noir of the Council.

Several members of the Council consider that the retention of McClelland on the police force is a personal insult to them, for it is his habit to speak of them in the most derisive and offensive terms. Since the action of the Police Board he has spoken of the majority of the Council in terms of undisguised contempt. One of the Councilmen said he ought to be dismissed for this reason if for no other.

"But," he continued, "McClelland is unfit to be on the police force for several good and sufficient reasons. He is a chronic disturber and making trouble. During the last city campaign he was around soliciting votes for the Municipal League ticket on the ground if it were successful he would be made Chief of Police.

"While the Board was purging the force of improper material they should have dropped McClelland at the start because his dismissal would improve the efficiency and discipline of the force."

"If the Mayor thinks I have got any friends to protect," said another, "just let him go ahead. He may throw out a poor gardener or an extramural in the Fire Department if that will do him any good, but I don't care. We have taken care of him and Mr. Johnson's friends right along, but when we ask that anything be done we are not only turned down but insulted. Besides the janitor and the night watchman, Mr. Johnson has an assistant in his office at \$125 a month, and his partner has been appointed special counsel for the city in the water suit. Both he and

Mr. Johnson have stenographers, and the Mayor has one in his office. I don't think it will hurt to make Mr. Johnson do his own work as City Attorney and compel the Secretary of the Board of Public Works to do his own typewriting. I think we can save some money from the Board of Health and the City Engineer's office."

City Attorney Johnson is supposed to be still's mainstay in the Police Board, but still is not so objectionable to the Councilman as McClelland. As the case of Policeman Royce, who was among those discharged, is better understood, deep sympathy is expressed for him. Had the Board known all the facts of his condition it is more than likely that he would still be wearing his star. Royce's wife died recently leaving him six children and a mortgage. In addition he is burdened with the care of a brother who returned from Cape Nome utterly broken in health. At his age after his long service on the police force, it is difficult to find any lucrative employment that he is fitted for.

Councilman Bishop is the one Republican member who takes no part in the quarrel, and it is generally understood that he will stand by the Mayor in case the row is carried into the Council's proceedings. He declines to make any comment on the utterances of his associates or to discuss the removals by the Police Board.

While the Mayor and City Attorney are remaining silent some of their friends are more outspoken.

"They talk of turning out Johnson's assistant and cutting salaries, but they can't do it," said one of these. "It requires an ordinance to do this, and they haven't got the votes to pass an ordinance over the Mayor's veto. They had better go slow about this business or they will find more trouble on their hands than they bargain for. They don't realize the extent of the power lodged in the police force. Some of the Councilmen have friends in the saloon business who are only making a bluff at obeying the ordinances. If the word goes down the link things will be closed up pretty tight and don't you forget it. If they start a fight they will probably feel in a little while like going back sitting down where they can't be seen or heard. The Mayor has been very far from bearing about several things, much against his judgment and inclination, but if any attempt is made to coerce him he will make things as tight as a drum. City Attorney Johnson may even cause the arrest of the saloonkeeper Solari for giving a bribe to a public officer."

So the talk goes on back and forth until one wonders what the outcome will be. If the first starts the struggle will be a bitter and relentless one, but some of the cooler-headed friends of both parties are trying to soothe wounded feelings and promote a better understanding. What effect the efforts of the peace makers will have cannot be estimated till the Council meets next Monday night.

An informal conference with the Mayor and Superintendent McClemonds this afternoon Auditor Breed stated that after all the outstanding claims and warrants up to the present year were paid, there would still remain a surplus of \$2,500 from the back taxes now in the treasury that the Council could legally appropriate for the maintenance of the night schools.

BOARD OF EDUCATION HEDGING ABOUT CLOSING NIGHT SCHOOLS.

The Finance Committee of the Board of Education will meet this evening, and to-day the Secretary of the Board sent a communication to the City Clerk asking the Finance Committee of the Council to meet jointly with the Board's Committee this evening or tomorrow evening to consider plans for raising the necessary funds to maintain the evening schools. There is some hope that the matter may be adjusted. On the surface the outlook is better for the night schools than it has been since the Board ordered them closed at the end of the present month.

It now appears that neither \$4000 nor \$5000 is required to keep the schools going. According to Superintendent McClemonds' figures \$2,625 will be sufficient to make up the necessary deficiency. According to the City Clerk's figures a less sum will do the trick. The cost of the night schools for salaries alone is \$275 a month. One month's salaries have already been paid out of the State and County fund, leaving the salaries for eleven months, aggregating \$3,025, to be provided for. To this must be added \$270 for gas and some other extras in the way of supplies.

It appears that the six typewriters recently ordered by the School Board were charged against the maintenance of the evening schools, though why is not stated. It is proposed to return these typewriters and pay something for their use. It is estimated that \$10 each would be about right, making the total \$60. To this add \$125 for supplies and the total necessary for the remainder of the year would be \$3,470. Now the levy of one mill for the School Fund is estimated to yield \$425 and the Treasurer says there is available from back taxes about \$500. Subtracting these amounts leaves a total of \$2,545 to be provided for, or \$2,625 according to Superintendent McClemonds' figures. An effort will be made to have the Council to pledge this sum out of the

TWENTY-FOUR LIVES LOST.

Men and Women are Forced to Jump to their Death in Order to Avoid Being Burned.

PHILADELPHIA, Oct. 25.—A fire, in which the police say seventeen persons lost their lives, and many more were seriously and perhaps fatally injured, took place today in the business section of the city.

The nine-story building of the Hunt, Wilkinson & Company furniture and upholstery manufacturing establishment on Market near Twelfth street and several other buildings were destroyed, involving a loss of over \$500,000.

Nine Floors Ablaze.

The flames shot up the elevator shaft and in less than five minutes every one of the nine floors of the structure was ablaze.

There were 430 employees, men and women, at work in the different departments at the time. Those on the second floor were the first to see the flames. Instantly there was a wild rush for the fire escapes, but owing to the highly inflammable nature of the material the blaze spread with remarkable rapidity, and the unfortunate occupants made frantic but unsuccessful efforts to escape.

Leaped to Death.

One woman leaped from one of the top floors into Market street, and was instantly killed. Another was roasted to death as she was descending the fire escape in the rear of the buildings. Two others jumped from the fire escape and were killed. Five others who leaped from windows were picked up living but they died on the way to the hospital.

Fell Into the Fire.

While the fire escape was filled with the panic stricken men and women the

CZOLGOSZ TURNS TO RELIGION.

PRIEST SAYS THE ASSASSIN IS A CHRISTIAN BUT WILL SAY NO MORE.

AUBURN, N. Y., Oct. 25.—Leon F. Czolgosz, the murderer of President McKinley, was visited in his cell today by Father Fudziniski.

The visit was made at the request of the condemned man.

Father Fudziniski spent an hour with the assassin.

When he emerged he was asked by an Associated Press reporter if Czolgosz had renounced anarchy and embraced Christianity.

He replied:

"He is a Christian. He was born a Christian, and although he may have renounced Christianity, he is a Christian, I think. This is all I will say."

Father Fudziniski is pastor of the Corpus Christi Church at Auburn.

SAMPSON WILL NOT BE CALLED.

WASHINGTON, Oct. 25.—Just before the Schley Court of Inquiry adjourned today, Judge Advocate Lemly addressed the Court as follows:

"Before the Court adjourns, I would like to ask counsel a question. He announced publicly that he desired a summons issued for Admiral Sampson; I have stated from time to time that if he would give me notice when he wanted the Admiral summoned, I would summon him. I have not received any notice and I do not want to leave the record in this shape, and I

GEARY SAYS HE MADE A MISTAKE.

EX-CONGRESSMAN EXPLAINS HIS POSITION IN THE NOME CASE.

SAN FRANCISCO, October 25.—Former Congressman Thos. J. Geary, one of the respondents in the Nome contempt case, testified on the stand before Commissioner Heacock to-day, that he never advised Alex McKenzie to disregard the writs of supersedeas issued in the mining litigation by the United States Circuit Court of Appeals.

Mr. Geary declared in positive terms that when he voiced the opinion that the writs were absolutely void he was not aware of the passage by Congress of an amendment whereby the Circuit Court of the Ninth District was given jurisdiction over Alaska.

Sam C. Dunham asked that he be permitted to modify a few of his answers given yesterday and he was allowed to do so. Immediately thereafter Attorney E. S. Pillsbury, Amicus Curiae, announced that he had concluded his testimony and Attorney McLaughlin rose and said:

"Before proceeding with the testimony in the case, and in order to expedite the hearing, as well as save expense, we desire to obtain some time in which to select that testimony which we deem relevant to the case of Judge Noyes. Therefore, Mr. Commissioner, I suggest that the taking of testimony in so far as it may pertain to Judge Noyes, be postponed until Monday next."

Accordingly Commissioner Heacock postponed the taking of testimony in the Noyes case until Monday afternoon. In the meantime a petition to have certain testimony stricken from the record will be presented by Judge Noyes.

If the petition be granted the trial will last but a short time, but if otherwise, Attorney McLaughlin intimated today that Judge Noyes would have to procure fresh affidavits from Nome ere the proceedings could go on.

CANNOT SELL BONDS.

their energies entirely to the work of rescue. Nets were spread in the front and rear of the building and some who jumped were saved in this way.

Two men, one white and one colored, emerged from the fourth story and stood on the fire escape with the flames all around them. The white man dived up and down and appeared to be bereft of his senses. The colored man stood a few moments and then jumped to his death below. The white man stood on the fire escape until he was overcome and then fell to his death in the street.

Street Filled With Victims.

When the firemen reached the rear of the building, which faces on Commerce street, a small thoroughfare, they found the street literally piled up with victims who had been carried down by the falling wall. These were hastily conveyed to the nearest hospital.

Fire Under Control.

At 1 o'clock the fire is still burning but is under control.

A new 8-story building at 1217 Market street, as yet unoccupied, prevented the spread of the flames to the eastward, in which direction they were blown by the wind. Otherwise today would have witnessed probably the greatest conflagration in the history of Philadelphia.

Several business houses on the south side of Market street also suffered but were not seriously damaged.

Flames Spread.

Eye witnesses say the flames spread with remarkable rapidity, owing to the fact that much naphtha, varnish, excelsior and other highly inflammable material was used by the firm. Employees who started down the fire escape in the rear of the building before the flames were visible from the streets, were compelled to jump before they had traveled two stories because of the flames breaking through the windows. The first firemen who arrived devoted

MILLION PEOPLE STARVING.

CHINESE IN THE INTERIOR PROVINCES ARE SUFFERING FOR WANT OF FOOD.

SHANGHAI, Oct. 25.—According to reliable reports received by British Consul General Warren, 600,000 persons in the provinces of An Hui and 300,000 in the province of Kiang Su, are on the verge of starvation and the famine is spreading.

The available funds are insignificant.

The Chinese have contributed 7,500 pounds and the foreigners 5,500 pounds.

A committee of the Consuls is being formed to aid the sufferers.

SCHLEY DID NOT TAKE TO COVER.

Admiral Replies to His Enemies and Explains His Actions Before Santiago.

WASHINGTON, October 25.—In the Schley Court of Inquiry to-day Admiral Schley continued the recital of his narrative regarding his conduct in the Spanish war. When the Court adjourned yesterday he had covered most of the points of the campaign previous to the beginning of the Santiago blockade, leaving that blockade, the reconnaissance of May 31, the battle off Santiago, and the famous loop of the Brooklyn yet to be told of. The Admiral, notwithstanding the strain yesterday, appeared fresh and in good condition for the work before him to-day.

Admiral Dewey rapped for order promptly at 11 o'clock. The Courtroom was crowded as it never has been before. Persons without tickets arriving after 10 o'clock were either compelled to accept standing room in the rear of the hall or to leave the building without hearing the proceedings, as many of them did. As was the case on yesterday, Admiral Schley was thoroughly self-possessed and he again spoke clearly and distinctly, so that his words were heard throughout the hall.

SCHLEY ON THE STAND.

Admiral Schley then took the stand and resumed his story. With the Court's permission he said he would go back to Cienfuegos in order that his narrative might be clear. Regarding the McCalla memorandum he said he received but one copy. If there had been another, he said, it should be in the papers which were returned to the Navy Department in January or February, 1900. He said he had not bombarded the earthworks at Cienfuegos because he was convinced that such bombardment would be unavailing. Subsequent experience in the war, he thought, bore out this opinion.

Admiral Schley was proceeding to say that despatch No. 10, concerning which Lieutenant Marsh had testified, (the despatch containing positive information that the Spanish fleet was in Santiago), was not received by him until June 10, when the Judge Advocate objected.

Captain Lemly—"If the Court please, I regret very much to be compelled to make objection to this character of testimony, but I understand from the Court itself that it wants facts."

Admiral Schley, sotto voce—"Well, these are facts."

Captain Lemly—"I do not understand this witness is here for the purpose of making argument and I do not think this character of testimony from a witness even on the stand in his own behalf is a matter of testimony."

Mr. Rayner contended that Admiral Schley was not giving opinions; that he was simply testifying to facts within his knowledge.

DISPATCH TO THE CHIEF.

After some further sparring the members of the Court held a brief consultation without leaving the courtroom, and Admiral Dewey announced his decision as follows:

"The Court is of the opinion that it is eminently proper for the witness to make the statement that the dispatch was dated May 27 and not received until June 10, then drop it; just give the facts."

To this Admiral Schley responded that this was all he had intended to do.

On May 31, after the bombardment of the Colon, Admiral Cotton had gone for Mole St. Nicholas with a report to the Department on that subject. Admiral Schley testified that he sent Nunez, the pilot, westward to communicate with the insurgents. Nunez landed near Ascerderos, fifteen or sixteen miles west of Santiago, and joining some Cuban insurgents, went into the interior. He returned June 1 or 2 with detailed information of the loca-

HAYWARDS HOME IS DESTROYED.

Family Went to the Church Fair and While Away the Fire Occurred.

HAYWARDS, October 25.—On Wednesday evening of this week the home of Manuel Rose De Costa was burned to the ground while the family were attending the Church Fair. The house was located about a mile and a half from town. Mr. De Costa and his family started for this place during the early part of the evening to attend the fair.

They left a lighted lamp in the house which was turned down. This lamp no doubt exploded and caused the fire, which totally destroyed the house and contents.

The flames were seen from town but it was thought to be a grass fire which have been so common of late.

The family knew nothing of their loss until they arrived at the ruins late at night. The loss is estimated at about \$750, on which there was no insurance.

IMPROVING THE ROAD IN FRUITVALE DISTRICT.

FRUITVALE, Oct. 25.—The work of macadamizing the road between here and Elmhurst is being rapidly pushed ahead. The road above Fitchburg is now cut up and a drainage pipe has been placed along the north line of the same. The work at the bridge is also progressing rapidly. The frames to be used in the construction of a concrete culvert just above Fitchburg are now on the grounds and the excavations for the new bridge have been started.

F. Reimnitz, treasurer of the local Board of Trade, is making a number of improvements in front of his home. He is having a new curbing put down and will also build a fine cement walk across the entire front of his property.

CHAMPION SHOT OF ELMHURST KEEPS RECORD.

ELMHURST, Oct. 25.—John Hamilton, the famous old-time crack shot of this place, who created quite a sensation some time ago by shooting to pieces a number of decoy ducks, has again brought in some proofs of his steady aim. Several days ago Mr. Hamilton shot an immense hawk which measured four feet across the wings. The fact of Mr. Hamilton getting the bird while on the wing and at a great height makes it plain that he still holds the record of being the best shot in town.

The old Elmhurst Hotel building is now being put in shape for occupancy. The place is being thoroughly gone over and repaired. It will be opened as a sanitarium and has been leased by Dr. H. C. Gottliebson.

LARGE PARTY AT LIVERMORE.

Soldier Boys Will Go Into Camp Near the Mocha This Afternoon.

LIVERMORE, Oct. 25.—A large crowd attended the birthday party of Miss Elsie La Frenz at Independent Hall last evening. Dancing was kept up until a late hour and a fine spread was set before the invited guests at midnight. Miss La Frenz was the recipient of many presents from her friends all of whom wish her many happy returns of the day.

GO INTO CAMP.

Company I, Fifth Regiment, N. G. C., will this afternoon march to the Arroyo Mocha just west of the sanitarium grounds where they will pitch their tents, have moonlight drill and feast themselves and friends on hard tack, beans and coffee. The boys will endure the hardships for one night of sleeping on straw with their knapsacks for pillows. At day break the bugle call will probably disband the camp and send the boys back to their homes.

BASEBALL GAME.

On Sunday next Lash Bitter baseball team of San Francisco will play the Howard Tailoring Company's club of Livermore.

LITTLE HAY LEFT.

There is but very little hay left in the fields hereabout, the owners having been fortunate enough to get it under cover either in warehouse or barn. Cars for shipment are still extremely scarce.

GRAPE CROP LIGHT.

Wine making will soon be over in this vicinity. The grape crop was light, consequently the vintage will be small, probably less than 1,000,000 gallons.

The ladies of the Presbyterian Church will begin their festival at noon on Saturday. The entertainment will take place in the evening. The Farmers' Union Theater will no doubt be crowded.

NOTHING LACKING IN "HAMLET" AT THE DEWEY.

At the Dewey Theater tonight "Hamlet" will be repeated and the audience unquestionably will be increased in size even over that of last night, which was large and enthusiastic.

This is the finest presentation of the piece which Manager Stevens has given at the Dewey. In fact, there is nothing left to be desired. The scenery is all new, the costumes rich and elegant and the company is unexceptionally strong both individually and collectively. "Hamlet" will be produced until Sunday night.

Backache is almost immediately relieved by wearing one of Carter's Smart Weed and Belladonna backache plasters. Try one; be free from pain. Price 5 cents.

Opening Piece Will be the Thrilling Mountain Play, "In Old Kentucky."

Manager Hall of the Macdonough Theater has decided that he will inaugurate his management of the house on Thursday, October 31, and that the opening piece will be "In Old Kentucky."

This is one of the greatest successes on the road and will draw packed houses.

In the southern part of the State the theater-goers are demanding return engagements of the company.

Larry Hickey, the well known carpet man of this city, was this afternoon awarded the contract to re-carpet the Macdonough. He has furnished a Wilton velvet that is as beautiful as could be desired in a private home.

UP TOWN OFFICE IS OPENED BY RAILROAD.

The new departure promised by the Southern Pacific Railroad Company in bringing its commercial representatives close to the business community has been accomplished by the opening of an office of the company at 468 Tenth street.

The office will be in charge of G. T. Forsyth, who holds the position of division freight and passenger agent of the company.

Mr. Forsyth, by reason of the central location of his headquarters, may be seen by shippers and consignees without being compelled to make a trip to one or the other of the depots, the mole and even San Francisco. He is to represent the company in all things pertaining to handling freight, in the maintenance of rates, passenger and otherwise, and, in fact, in any of the questions which are likely to arise between the carrier and the man of affairs. He has been in the business for twenty-five years and for more than half that time he has been connected with the Southern Pacific Company.

Mr. Forsyth is an expert in his line and will be found courteous and painstaking in the discharge of his duties.

LEATHER GOODS

are always in season. Purse, Combination Books, Grips, Hand Bags, etc., are here now in goodly profusion. They will be in demand when the Holiday season opens.

Pause a moment

and look over your wardrobe. You will doubtless find some things missing—things that ought to be there—with November less than a week away.

Swell Winter Waists

keep coming in and although the first lot were ultra-stylish, they have been, we think, over shadowed by their successors. Prices now begin at 65c at which price we have a very comfortable flannelette waist in all colors, and go to 5.00 at which price there is a line of rich waists, handsomely applied; in all colors.

New Ideas in Belts

There is just now a revival in those comfortable, broad, velvet crushed belts. A big line is here made of heavy quality of good velvet in all colors and with a large variety of gilt and oxidized fancy buckles. Price 75c.

Wide tucked Girdles, made of heavy black satin and fastened with ribbon bows—extra value 75c.

Men's Ribbed Underwear

in the weights demanded by the present variable weather.

Men's heavy fleeced cotton underwear with finished seams; very elastic; in gray and ecru. Price 50c.

Men's gray wool mixed under garments, flat seams, heavy weight, good values at 75c.

Men's wool undergarments in medium and heavy weight, form fitting; gray, camel hair and vicuna. Price 1.00.

Women's Ribbed Underwear

Women's heavy fleeced cotton under garments, made with finished seams, in cream and gray 25c and 35c.

Women's Wool. Mixed non-shrinkable Vest and French band Pants, good values at 50c.

Women's Heavy Cotton-Fleeced Union Suits—the popular Oneita style—in ecru and gray 50c.

Woolen Mittens

a necessity for little people, an agreeable addition to winter's garb for older people.

Infants' Woolen Mittens, in red, white, pink and blue. Prices 10c, 15c, 20c and 25c.

Infants' Silk Mittens in pink, white and red, 40c.

Children's Woolen Mittens in red and black, 10c to 25c.

Children's Woolen Gloves, red, navy, green, brown and black. Price, 25c.

Men's Woolen Mittens, extra heavy, 25c, 35c and 50c.

A Glove Special

While calling attention to our complete lines of excellent kids and suedes in all the new shades at 1.00 and 1.50 we would mention today:

Two-clasp "Mascot" Kid Gloves, regular value \$1.25, reduced to 69c. The sizes are 5 1/2, 5 3/4, 6 and 6 1/2 in green only.

Flannelette Kimonos

This is the free-and-easy Japanese idea, worked out in a very agreeable winter material. They are made very full and are finished with broad trimmings of plain blue and pink. Price, 95c.

Nobby Winter Suits

Well made and properly finished garments will fit you and will be stylish. Good materials properly sponged wear well and will not shrink. Our new tailor-made winter suits embody all of these qualities. —And remember this—whatever we send out must fit and give satisfaction.

With great confidence we direct attention to an excellent line of tailor-made suits, either Eton or jacket effect, which are offered at the remarkably good value price of 15.00—They have either turned cuff or bell-sleeve; handsomely trimmed new bell skirt and come in black, navy, brown and oxford.

Another handsome suit also sold for 15.00 is in navy blue and has an Eton jacket with stitched satin reverses, and cuffs; flared skirt trimmed with seven bands of satin; lined throughout with silk moireen.

An Interesting Window Picture

will be found on Washington street. It contains an appealing display of the latest arrivals in Fall neckwear and dress trimmings and frontings.

The neckwear is a series of little stories told in color and design, that can only be read with the eye. The prices range from 50c to \$2.50.

The dress trimmings and all-overs embrace a multitude of winter novelties such as are now in demand and among them are many of the handsomest patterns ever displayed.

Auto Box Coats for Children

are so pre-eminently fashionable that it is unnecessary to say anything more than the fact we have something that will give perfect satisfaction to every little wearer from two years up to sixteen and at prices that will prove equally as satisfactory as the style.

DOG FIGURES AS A SILENT WITNESS

Young Men Accused of Robbery Are Held to Answer by Judge Smith.

Frank Case and Charles Merrill, the two alleged footpads accused of holding up Lung Sing, a Chinese, on the night of October 7 on the Webster street bridge, were held to answer before the Superior Court this morning in the Police Court. Bail in each case was fixed at \$1,000.

If the men are convicted in the Superior Court it will be upon the silent testimony of a little black spaniel dog. Aside from the direct testimony of Lung Sing, who positively identified Case and Merrill as the men who held him up, the circumstantial evidence on which the prosecution will rely to convict, is the presence of the spaniel on the night of the robbery.

Lung Sing on the witness stand testified that the two men who held him up were accompanied by a little black spaniel dog. Mrs. Lena Murback testified that Merrill and Case had a room in her house at 302 Twenty-fourth street, and that on the night preceding the robbery the spaniel accompanied both men, coming home with them two days later. Merrill on the stand admitted that such a dog had been with them, but stated that the dog had been given to a little boy upon the night of the hold-up. He did not explain how the dog came home with them two days later.

If a conviction of Merrill and Case is secured, it will be a repetition of those curious cases in criminal annals where the guilty party has been run down and convicted on account of a fondness for some dumb animal who by its very affection and faithfulness is the cause of the master's undoing.

The testimony of Chief of Police Hodgkins relative to statements made by Merrill subsequent to his arrest is considered by the prosecution to be very damaging to the alibi the defense proposed establishing by the testimony of two married women.

John de Lancy, attorney for the accused, did not offer any testimony for the defense, preferring to not show the line of evidence the defense will rely on for an acquittal until the matter comes up in the Superior Court.

AMIL RAYDOR DIES IN FRUITVALE HOME.

Amil Lucien Raydor, aged 68 years, died this morning at his residence in Fruitvale of paralysis. The deceased had been in robust health up to Monday last when he was stricken suddenly with paralysis. The stroke was very severe and from the first little hope of his recovery was entertained. Dr. J. F. Henry of Diamond was called, but the patient steadily grew worse, passing away this morning at 3 o'clock.

The deceased was a native of France. He was well known among the members of the French colony. He leaves a wife and a step-daughter to mourn his loss. The funeral will be held tomorrow afternoon at 2 o'clock. The interment will be in St. Mary's Cemetery.

FINK DIVORCE CASE GOES TO SAN FRANCISCO.

A motion for a change of venue to San Francisco was this morning granted by Judge Greene in the divorce suit of Mrs. M. A. Fink of Alameda against Alonzo Fink. There was no opposition.

The Finks were formerly prominent in Alameda society. At present Fink is engaged in the brokerage business in San Francisco. A former divorcee suit was tried in this county, and closed doors, and was sensational in its developments, each party making charges of infidelity.

WILL BE TRIED ON CHARGE OF BEATING A WOMAN.

Carl Neyland, the Swede, who is accused of kicking his sweetheart's teeth out, while in a fit of jealousy, will come up for trial tomorrow in the Police Court. He was sentenced this morning to serve five days on a charge of being drunk.

CERTIFICATE OF APPOINTMENT.

The certificate of appointment of William P. Howlett as patrol wagon driver has been filed with the City Clerk.

HEART DISEASE.

Some Facts Regarding the Rapid Increase of Heart Trouble.

Heart troubles, at least among the Americans, are certainly increasing, and while this may be largely due to the excitement and worry of American business life, it is more often the result of weak stomachs, of poor digestion.

Real organic disease is incurable, but not one case in a hundred of heart trouble is organic.

The close relation between heart trouble and poor digestion is because both organs are controlled by the same great nerves, the Sympathetic and Pneumogastric.

In another way, also, the heart is affected by the form of poor digestion, which causes gas and fermentation from half digested food. There is a feeling of oppression and heaviness in the chest caused by pressure of the distended stomach on the heart and lungs, interfering with their action, hence arises palpitation and short breath.

Poor digestion also poisons the blood, making it thin and watery, which irritates and weakens the heart.

The most sensible treatment for heart trouble is to improve the digestion and to insure the prompt assimilation of food.

This can be done by the regular use after meals of some safe, pleasant and effective digestive preparation, like Stuart's Dyspepsia Tablets, which may be found at most drug stores, and which contain valuable, harmless digestive elements in a pleasant, convenient form.

It is safe to say that the regular, persistent use of Stuart's Dyspepsia Tablets will cure any form of indigestion, stomach trouble except cancer of the stomach. Full sized package of these tablets sold by druggists at 50 cents. Little book on stomach troubles mailed free. Address P. A. Stuart Co., Marshall, Mich.

INSURED.

YOU insure your house against fire. You know what people would say if it burned down without insurance. They would say you were wanting in business sagacity, that you should have provided for this. Now leave house insurance and consider clothing insurance. Here the danger is even greater—not from fire, but from the chemicals and strong soaps used in the laundry. Wise women insure their finer, more delicate and perishable things against this risk, and the premium they pay is the trifling cost of Ivory Soap. That guarantees protection.

IVORY SOAP—IT FLOATS.

WHO SECURED THE BIG PRIZE.

The publication of the following telegram in a San Francisco paper this morning attracted general attention among local florists, each wondering who the successful flower fancier was, and why he had not, of his own accord, revealed his good fortune.

"CHICAGO, Oct. 21.—B. Eldredge, a millionaire sewing machine manufacturer of Belvidere, Ill., has paid \$1,750 for a single bloom of a salmon-colored carnation. While Eldredge was wintering in California last season he accidentally secured an Oakland florist, who made a casual remark about a rare variety of salmon-colored bloom blended with crimson which he had recently developed in his conservatory. Eldredge wanted the plant and money was no object to him; so, after a few hours' dickering, he secured it for \$1,750."

"The carnation was about 3 months old at the time and it is now in full bloom in Eldredge's conservatory at Belvidere. Its owner has christened it 'Eldredge B.' carnation. It is a cross between the John Carbone yellow and red variety and the 'Bradt,' which is white and red."

Up to the time of going to press this afternoon, none of the florists spoken to was willing to claim for himself the distinction, neither did he know any of his calling who had attained the notoriety in question.

The florist spoken to regarding the matter were Seuberg, Sanborn, Gill, Symonopoulos, Lacazette, Carbone of Berkeley also several Japanese raisers of flowers in various parts of the city.

There was no one of them who was not able to see inconsistencies in the telegram. All were agreed on two points, namely, that to pay \$1,750 for a single carnation plant without reference to the acquirement of the rest of "the stock" was ridiculous, because the seller by retaining a number of plants would indefinitely depreciate the value of the plant purchased, as it would enable any person feeling so disposed to purchase a carnation of the kind alleged to be prized so dearly.

"Another point upon which there was no diversity of opinion is the fact that a carnation cannot bloom in three months from a seedling and that, therefore, the purchaser of the 'Eldredge B.' must have bought the plant before he could possibly know what the carnation would look like, a recklessness which, the local dealers say, is not usually charged up against flower fanciers. Some of the home flower men said that six months would be the shortest period in which a carnation could bloom from a seedling, and when the showing would not be sufficient to enable even a flower-fancier to know what richness of color or what variety in convolutions would be found in the new applicant for favor."

In the telegram, it will be observed, it is stated that the new floral beauty is said to be a cross between the 'John Carbone yellow and red variety' and the 'Bradt,' which is white and red."

The John Carbone referred to is not the trainer of the flower which bears his name. In speaking to a TRIBUNE reporter today, Carbone explained that the carnation was given his name by the florist who had raised it, a man named Stevers, who is in business at Van Ness avenue and Chestnut street, San Francisco, and who named it 'John Carbone' because he was the first person to whom the carnation had been exhibited by Stevers.

Carbone, however, disclaimed all knowledge as to who had combined his floral name with the 'Bradt.'

There are no finer florists in the country than those of Oakland, but they are innocent in this case.

FRIENDLY TO RUSSIA.
SHANGHAI, Oct. 25.—The newspapers consider that General Yang Lu's secret dispatch to Li Hung Chang asserting that the Empress Dowager is anxious to enter into friendly relations with Russia, and adding that Li Hung Chang must promptly conclude the Manchurian treaty, indicate Yang Lu's determination to revenge himself upon the Viceroy's time is approaching for Great Britain to carry out her promise to stand by the Yang tse Viceroy.

PECK'S THEATER WILL OPEN TOMORROW AFTERNOON.

The new theatre to be known as 'Peck's Broadway' opens tomorrow afternoon at 2 o'clock at the northeast corner of Broadway and Thirteenth street. There will be a new and splendid entertainment and also moving pictures. A. E. Peck, the proprietor, intends to give a continuous show every afternoon and evening from 2 to 10 p. m. With the admission at ten cents, the show is bound to be a success.

SCHLEY TELL OF FAMOUS LOOP.

WASHINGTON, Oct. 25.—Admiral Schley, while on the stand this afternoon, denied that he had ever used the words on the bridge of the Brooklyn attributed to him by Commander Hodgson. At 3:40 p. m. Admiral Schley complained of an irritation of the throat and an adjournment was accordingly taken until Monday. Schley said:

"It was now apparent that the original plan of the Spaniards had failed and they were now entering upon the second phase and that their new disposition would control their subsequent course. Captain Cook now gave the order to port the helm. If he had not done so I should have done so in a minute. I said to him: 'Is your helm a-port?' and he replied: 'It is a-port or hard-a-port.' I think the latter."

Coming to the turn of the Brooklyn, Admiral Schley, speaking steadily and clearly, and never hesitating for a word, said that he had never seen a ship turn more steadily.

"The turn," he said, "was absolutely continuous; there was no easing of the helm, and I never saw the starboard side nearer that vessel than 800 yards. We were so distant that I never had any thought of danger in connection with the Texas."

He said the closest range given was 1,100 yards.

"We were so close," he went on, "that I remember could see men on the Spanish ships running between the superstructures; I could even see the daylight between their legs."

"During the turn Lieut. Commander Hodgson very properly made the observation that we should 'have the helm steady,' but there never was any colloquy between us—never any colloquy of any character, between Hodgson and myself, first, because he was too good an officer to have so grossly misused the word 'steady,' and, second, because if he had undertaken to do so I should have reprimanded him. That incident is fiction; it never occurred."

MAY BECOME THE DUCHESS OF VALENCAY.

PARIS, Oct. 25.—Count de Bosan Perigord, who recently married Miss Helen Morton, daughter of Levi P. Morton, the former Vice-President of the United States, has now purchased the Chateau de Valencay for 2,750,000 francs. The owner of the domain of Valencay is a member of the nobility entitled to the Dukedom. The Gaulois explains the belief that Count de Bosan Perigord will claim his rights and the former Miss Morton will thus become Duchess of Valencay.

A Fireman's Close Call.

"I stuck to my engine, although every joint ached and every nerve was racked with pain," writes C. W. Bellamy, a locomotive fireman of Burlington, Iowa. "I was weak and pale, with no appetite and all run down. As I was about to give up, I got a bottle of Electric Bitters and, after taking it, I felt as well as I ever did in my life. Weak, sickly run-down people always gain new life, strength and vigor from their use. Try them. Satisfaction guaranteed by Coughlin Bros., Seventh and Broadway, Oakland. Price 50 cents."

MISS ELSIE ABRAHAM SUCCUMBS TO ILLNESS.

Miss Elsie Abraham, aged 18 years, died at the home of her parents, 2517 Eighth street, yesterday, after a lingering sickness. Death was immediately due to diphtheria. She was a native of Berlin, Germany, removing to this country with her parents when a small child. The funeral will be held Sunday from the home of her parents. The interment will take place in Mountain View Cemetery.

Die Fließgeschwindigkeit der Schmelze wird durch die Temperatur, die Viskosität und die Querschnittsfläche des Kanals bestimmt. Die Temperatur ist ein wichtiger Faktor, da sie die Viskosität der Schmelze beeinflusst. Eine höhere Temperatur führt zu einer niedrigeren Viskosität und damit zu einer höheren Fließgeschwindigkeit. Die Viskosität ist eine Eigenschaft der Schmelze, die den Widerstand gegen das Fließen beschreibt. Die Querschnittsfläche des Kanals ist ebenfalls ein wichtiger Faktor, da sie den Widerstand gegen das Fließen beeinflusst. Eine größere Querschnittsfläche führt zu einer höheren Fließgeschwindigkeit.
